**Tuesday, November 25, 2008**  
**Building 170, R1091/1092**  
**10:00 AM**

**"Cooperation is the Key: The 2008 G-8 Summit and the Call for Expanded Science and Technology Collaboration and Policy Coordination in Meeting the Challenges of Climate Change, Energy Security, and Nonproliferation and the 3S's in the 21<sup>st</sup> Century"**

Ambassador Nishida will discuss his views on developments associated with the recent G-8 Summit (hosted by Japan), particularly those developments associated with the G-8 agenda items concerning global climate change and nuclear energy, nonproliferation, security, safety, and safeguards (3S). He will discuss his thoughts on what the G-8 statements and initiatives may mean to cooperation among the United States, Japan, and other nations in addressing the challenges of global climate change, energy security, and nonproliferation.
